

CityBox Storage Smartphone Access App

About the CityBox Storage App

- All CityBox Storage (Midtown) customers have access to the CityBox Storage App.
- All of our entry doors and your unit door can be opened with the App
- The App uses Bluetooth encrypted technology so you have to be within range of the door to open it. You know you're within range when the "unlock" button appears **BLUE**

Setting Up the CityBox Storage App

- On your move-in day you will receive a text message sent to your mobile phone to download the App. Some mobile providers are known to block the text message, so if you did not receive a text message - please download the **CityBox Storage App**
- You will need to know your Apple or Google password in order to download a new App from the Apple App Store or Google Play Store
- To get a text message to download the App our software needs a mobile phone on your account. If you booked a unit online and didn't enter in your cell number our system will not recognize it. In this case, call us during business hours at **403.252.2552**

Tips for Using the App

- You must be within least two meters (6 feet) of the door you are trying to open
- Ensure your **Bluetooth is enabled**
- Ensure your **location services are enabled**
- Ensure your **mobile data is turned on**

What if the CityBox Storage App isn't Working

- Try closing out of the app and reopening it
- Try re-installing the app
- If you're talking on the phone in your car via Bluetooth, try hanging up
- Check for an available update in the Apple App store or Google Play store

Additional Benefits of the CityBox Storage App

- You can share a digital key with someone you trust by hitting the "share unit" in the upper right hand corner of the mobile phone screen
- you can see all activity for your unit by selecting the "heartbeat" symbol in the bottom of the main menu
